Suggested first steps

Asking for support

- No DMs or group chats - please post requests for help in #c6--classroom channel
- Be explicit about what you need help with in your message
 - “Pls could we get some Git help as we have tried to merge and we cannot resolve the conflicts”
- When we get there, explain your issue including all the things you may have tried
- Books (internet), Brains, Buddies, Boss
- You are welcome to ask for help
- Let us know if someone in your group goes AWOL
